

SDA Vision / Research report

illustration-3.webp

Assessment summary

Field	Recorded detail
Finding	Leaning authentic
Recorded verdict	authentic likely
Confidence	medium
Indicative rating	8/100
Rating basis	median of available model ratings; not a calibrated probability
Explanation	3 models lean authentic with matching verdicts and ratings. Review the other findings, original source and context alongside this result.
Coverage	image - 1 frame(s) analysed
Review context	Research assessment. Review alongside source information and context. When credentials are missing, origin remains unresolved by this check. Use these findings to inform a documented human review.

Provider overview

Provider	Type / status	Assessment	Rating
Claude Vision	vision / ok	authentic likely	5/100
OpenAI Vision	vision / ok	authentic likely	8/100
Gemini Vision	vision / ok	authentic likely	25/100
C2PA Content Credentials	provenance / ok	inconclusive	n/a
Local forensic cues	forensic / ok	partially synthetic	41/100

Provider evidence / 1

Field	Recorded detail
Provider	Claude Vision
Model	claude-opus-5-5
Status	ok
Assessment	authentic likely
Confidence	medium
Role in assessment	Supporting
Provider summary	synthetic likelihood 5/100; tells: hand-drawn ink linework with consistent, deliberate pen strokes, coherent, correctly spelled hand-lettered text in speech bubble and labels, legible artist signature and syndication credit (The Columbus Dispatch / CagleCartoons.com, dated '19), cross-hatching texture on left background typical of traditional/digital-inked editorial cartoons
Evidence 1	Hand-drawn ink linework with consistent, deliberate pen strokes
Evidence 2	Coherent, correctly spelled hand-lettered text in speech bubble and labels
Evidence 3	Legible artist signature and syndication credit (The Columbus Dispatch / CagleCartoons.com, dated '19)
Evidence 4	Cross-hatching texture on left background typical of traditional/digital-inked editorial cartoons
Evidence 5	Anatomically coherent hands and consistent character styling
Evidence 6	Stylistic consistency with known editorial cartoonist conventions (Nate Beeler style)
Evidence 7	Compression artifacts consistent with web re-encoding (webp)
Evidence 8	Caveat: Image is a digital illustration, not a photo, so camera-based forensic signals do not apply; origin assessment relies on stylistic and signature cues, and a human should verify against the original syndicated publication (CagleCartoons, 2019) to rule out alterations.

Provider evidence / 2

Field	Recorded detail
Provider	OpenAI Vision
Model	gpt-6-astra
Status	ok
Assessment	authentic likely
Confidence	medium
Role in assessment	Supporting
Provider summary	synthetic likelihood 8/100; tells: Consistent editorial-cartoon ink outlines and crosshatching, Coherent hand-lettered speech and disease labels, Deliberate, consistent caricature proportions, Integrated publication credit and artist signature
Evidence 1	Consistent editorial-cartoon ink outlines and crosshatching
Evidence 2	Coherent hand-lettered speech and disease labels
Evidence 3	Deliberate, consistent caricature proportions
Evidence 4	Integrated publication credit and artist signature
Evidence 5	No conspicuous generative texture or lettering artifacts
Evidence 6	Caveat: This is an illustration, not a camera photograph; style and signature alone cannot establish human authorship or exclude AI editing.

Provider evidence / 3

Field	Recorded detail
Provider	Gemini Vision
Model	gemini-3.8-flash
Status	ok
Assessment	authentic likely
Confidence	high
Role in assessment	Supporting
Provider summary	synthetic likelihood 25/100; tells: consistent hand-drawn editorial cartoon style, legible artist signature and syndicate attribution, coherent crosshatching and ink work, absence of diffusion generation artifacts
Evidence 1	Consistent hand-drawn editorial cartoon style
Evidence 2	Legible artist signature and syndicate attribution
Evidence 3	Coherent crosshatching and ink work
Evidence 4	Absence of diffusion generation artifacts
Evidence 5	Caveat: Editorial illustrations are non-photographic, requiring human review to confirm original publication provenance.

Content Credentials / provenance

Field	Recorded detail
Provider	C2PA Content Credentials
Model	Not recorded
Status	ok
Assessment	inconclusive
Confidence	Not recorded
Role in assessment	Additional finding
Provider summary	Embedded credentials: none found. Origin remains unresolved by this check.
Evidence 1	Coverage: credentials embedded in the submitted file. External credentials were not retrieved.
Evidence 2	Verifier: c2pa-python 0.37.12; native SDK 0.91.0; specification target 2.4; policy embedded-offline-reviewed-trust-v3.
Evidence 3	Offline embedded-manifest verification; no network trust-list, manifest or revocation refresh.
Evidence 4	No reviewed local C2PA trust snapshot installed. Provenance overrides are disabled.

Provider evidence / 5

Field	Recorded detail
Provider	Local forensic cues
Model	Not recorded
Status	ok
Assessment	partially synthetic
Confidence	low
Role in assessment	Additional finding
Provider summary	Heuristic synthetic likelihood 41/100 from metadata + pixel statistics.
Evidence 1	No camera EXIF (common in AI exports, screenshots, and re-saves).
Evidence 2	ELA mean 1.3, peak 34 (uniform high ELA can indicate generation/heavy edit).
Evidence 3	High-frequency noise std 19.52 (very low/very uniform noise is a synthesis cue).
Evidence 4	Spectral peakiness 12.27 (periodic frequency peaks can mark generated textures).

Evidence supporting this verdict

Field	Recorded detail
Claude Vision	synthetic likelihood 5/100; tells: hand-drawn ink linework with consistent, deliberate pen strokes, coherent, correctly spelled hand-lettered text in speech bubble and labels, legible artist signature and syndication credit (The Columbus Dispatch / CagleCartoons.com, dated '19), cross-hatching texture on left background typical of traditional/digital-inked editorial cartoons
OpenAI Vision	synthetic likelihood 8/100; tells: Consistent editorial-cartoon ink outlines and crosshatching, Coherent hand-lettered speech and disease labels, Deliberate, consistent caricature proportions, Integrated publication credit and artist signature
Gemini Vision	synthetic likelihood 25/100; tells: consistent hand-drawn editorial cartoon style, legible artist signature and syndicate attribution, coherent crosshatching and ink work, absence of diffusion generation artifacts

Additional findings

Field	Recorded detail
Local forensic cues	Supporting observation; considered alongside the model assessments.
C2PA Content Credentials	Embedded credentials: none found. Origin remains unresolved by this check.

Visible text

Field	Recorded detail
Recorded text	THE COLUMBUS DISPATCH CAGLECARTOONS.COM Beeler 2019 / I REJECT VACCINES OUT OF LOVE FOR MY CHILDREN. / NO VAX / MEASLES / MUMPS / RUBELLA

How this assessment was reached

Field	Recorded detail
1. override	outcome=none; detail=No confirmed C2PA AI assertion or SynthID watermark. Origin remains unresolved by these checks.
2. model_agreement	synthetic=[]; authentic=['Claude Vision', 'OpenAI Vision', 'Gemini Vision']; uncertain=[]; forensic_supports_synthetic=False
3. verdict	value=authentic_likely; confidence=medium; reason=3 models lean authentic with matching verdicts and ratings. Review the other findings, original source and context alongside this result.

File and analysis record

Field	Recorded detail
File	illustration-3.webp
Analysis ID	b5d4ff88-8488-45f9-af47-300bcc02ff34
Generated	2026-09-26T22:31:04+00:00
Tool	SDA Vision 0.1.0
Models	claude-opus-5-5, gemini-3.8-flash, gpt-6-astra
Method version	pdf-preparation-2026-09-26.1
Analysis lens	general
Original SHA-256	17442d095e61a319e806d0a58993fcb5b4a89705867bda5ead74b82bec4b8add
Ingestion note 1	Fresh provider replies acquired for eleven-examples-refresh-20260926-r1; report assembled locally from the saved responses without further API calls.
Ingestion note 2	Provider latency values are restored from the acquisition receipts (maximum sampled-frame latency per provider); raw replies and assessment results are unchanged by this bookkeeping step.
