

SDA Vision / Research report

illustration-2.png

Assessment summary

Field	Recorded detail
Finding	Leaning synthetic
Recorded verdict	synthetic likely
Confidence	high
Indicative rating	85/100
Rating basis	median of available model ratings; not a calibrated probability
Explanation	3 models agree this is likely synthetic.
Coverage	image - 1 frame(s) analysed
Review context	Research assessment. Review alongside source information and context. When credentials are missing, origin remains unresolved by this check. Use these findings to inform a documented human review.

Provider overview

Provider	Type / status	Assessment	Rating
Claude Vision	vision / ok	synthetic likely	88/100
OpenAI Vision	vision / ok	synthetic likely	85/100
Gemini Vision	vision / ok	synthetic likely	72/100
C2PA Content Credentials	provenance / ok	inconclusive	n/a
Local forensic cues	forensic / ok	partially synthetic	41/100

Provider evidence / 1

Field	Recorded detail
Provider	Claude Vision
Model	claude-opus-5-5
Status	ok
Assessment	synthetic likely
Confidence	medium
Role in assessment	Supporting
Provider summary	synthetic likelihood 88/100; tells: garbled secondary text on props: 'ULTRA-PATCAI' on raised bottle, 'REMEDV' on jar, 'Buu' on picket sign, picket sign text is repetitive and semantically incoherent ('Chloe Dubois Buy Chloe'), poster is held by two people's hands yet also rests on an easel, which is physically redundant, homogeneous glossy digital-comic rendering with uniform line weight and soft airbrushed shading typical of diffusion image models
Evidence 1	Garbled secondary text on props: 'ULTRA-PATCAI' on raised bottle, 'REMEDV' on jar, 'Buu' on picket sign
Evidence 2	Picket sign text is repetitive and semantically incoherent ('Chloe Dubois Buy Chloe')
Evidence 3	Poster is held by two people's hands yet also rests on an easel, which is physically redundant
Evidence 4	Homogeneous glossy digital-comic rendering with uniform line weight and soft airbrushed shading typical of diffusion image models
Evidence 5	Large crowd of stylistically similar, idealized faces with consistent generic features
Evidence 6	Clean, legible speech-bubble text contrasted with degraded prop text, consistent with modern text-capable generators or later overlay
Evidence 7	'EMERGENCY' sign cut off at the building edge in an unnatural way
Evidence 8	Flat SDA logo box that appears to be a post-hoc overlay
Evidence 9	No camera signals: no sensor noise, lens optics or photographic lighting (illustration medium)
Evidence 10	Caveat: This is an illustration, not a photo. Human artists and AI both produce this style, so the rating rests mainly on garbled prop text and composition quirks. The speech bubbles and logo may have been added separately. Check provenance metadata and C2PA credentials if available, and verify whether 'Chloe Dubois' refers to a real person.

Provider evidence / 2

Field	Recorded detail
Provider	OpenAI Vision
Model	gpt-6-astra
Status	ok
Assessment	synthetic likely
Confidence	medium
Role in assessment	Supporting
Provider summary	synthetic likelihood 85/100; tells: Bottle-gripping fingers have crowded, irregular contours and ambiguous joins to wrists., The small placard repeats the name in the awkward sequence 'Chloe Dubois Buu Chloe'. Uniform glossy facial shading and densely repeated hair contours across the illustrated crowd., Some hands and arms overlap props with unclear anatomical connections.
Evidence 1	Bottle-gripping fingers have crowded, irregular contours and ambiguous joins to wrists.
Evidence 2	The small placard repeats the name in the awkward sequence 'Chloe Dubois Buu Chloe'.
Evidence 3	Uniform glossy facial shading and densely repeated hair contours across the illustrated crowd.
Evidence 4	Some hands and arms overlap props with unclear anatomical connections.
Evidence 5	Caveat: This is a digital illustration; stylization and manual compositing can mimic generation artifacts, so AI origin requires provenance review.

Provider evidence / 3

Field	Recorded detail
Provider	Gemini Vision
Model	gemini-3.8-flash
Status	ok
Assessment	synthetic likely
Confidence	medium
Role in assessment	Supporting
Provider summary	synthetic likelihood 72/100; tells: stylized digital comic illustration style, characteristic generative AI linework consistency, overly smooth shading on faces and hair, inconsistencies in minor background details
Evidence 1	Stylized digital comic illustration style
Evidence 2	Characteristic generative AI linework consistency
Evidence 3	Overly smooth shading on faces and hair
Evidence 4	Inconsistencies in minor background details
Evidence 5	Caveat: Standard digital illustration techniques can closely mimic AI-generated comic and vector aesthetics.

Content Credentials / provenance

Field	Recorded detail
Provider	C2PA Content Credentials
Model	Not recorded
Status	ok
Assessment	inconclusive
Confidence	Not recorded
Role in assessment	Additional finding
Provider summary	Embedded credentials: none found. Origin remains unresolved by this check.
Evidence 1	Coverage: credentials embedded in the submitted file. External credentials were not retrieved.
Evidence 2	Verifier: c2pa-python 0.37.12; native SDK 0.91.0; specification target 2.4; policy embedded-offline-reviewed-trust-v3.
Evidence 3	Offline embedded-manifest verification; no network trust-list, manifest or revocation refresh.
Evidence 4	No reviewed local C2PA trust snapshot installed. Provenance overrides are disabled.

Provider evidence / 5

Field	Recorded detail
Provider	Local forensic cues
Model	Not recorded
Status	ok
Assessment	partially synthetic
Confidence	low
Role in assessment	Additional finding
Provider summary	Heuristic synthetic likelihood 41/100 from metadata + pixel statistics.
Evidence 1	No camera EXIF (common in AI exports, screenshots, and re-saves).
Evidence 2	ELA mean 1.4, peak 24 (uniform high ELA can indicate generation/heavy edit).
Evidence 3	High-frequency noise std 14.26 (very low/very uniform noise is a synthesis cue).
Evidence 4	Spectral peakiness 13.87 (periodic frequency peaks can mark generated textures).

Evidence supporting this verdict

Field	Recorded detail
Claude Vision	synthetic likelihood 88/100; tells: garbled secondary text on props: 'ULTRA-PATCAI' on raised bottle, 'REMEDV' on jar, 'Buu' on picket sign, picket sign text is repetitive and semantically incoherent ('Chloe Dubois Buy Chloe'), poster is held by two people's hands yet also rests on an easel, which is physically redundant, homogeneous glossy digital-comic rendering with uniform line weight and soft airbrushed shading typical of diffusion image models
OpenAI Vision	synthetic likelihood 85/100; tells: Bottle-gripping fingers have crowded, irregular contours and ambiguous joins to wrists., The small placard repeats the name in the awkward sequence 'Chloe Dubois Buu Chloe'. Uniform glossy facial shading and densely repeated hair contours across the illustrated crowd., Some hands and arms overlap props with unclear anatomical connections.
Gemini Vision	synthetic likelihood 72/100; tells: stylized digital comic illustration style, characteristic generative AI linework consistency, overly smooth shading on faces and hair, inconsistencies in minor background details

Additional findings

Field	Recorded detail
Local forensic cues	Supporting observation; considered alongside the model assessments.
C2PA Content Credentials	Embedded credentials: none found. Origin remains unresolved by this check.

How this assessment was reached

Field	Recorded detail
1. override	outcome=none; detail=No confirmed C2PA AI assertion or SynthID watermark. Origin remains unresolved by these checks.
2. model_agreement	synthetic=['Claude Vision', 'OpenAI Vision', 'Gemini Vision']; authentic=[]; uncertain=[]; forensic_supports_synthetic=False
3. verdict	value=synthetic_likely; confidence=high; reason=3 models agree this is likely synthetic.

File and analysis record

Field	Recorded detail
File	illustration-2.png
Analysis ID	00b728bf-05b0-4ff7-98de-2a330c657fdf
Generated	2026-09-26T17:54:46+00:00
Tool	SDA Vision 0.1.0
Models	claude-opus-5-5, gemini-3.8-flash, gpt-6-astra
Method version	verdict-consistency-2026-09-26.1
Analysis lens	general
Original SHA-256	6693be931db5fb33a8cacfae382bf3bc79fc23b0d9f8e967015a663688d8c8f5
Ingestion note 1	Recomputed locally from the same saved provider replies acquired under run five-examples-20260926-r1. No new provider requests. Original report 6ea1656c-14d6-4257-bf8c-ed1a698f7865 was generated at 2026-09-26T17:38:40+00:00 under method publication-repair-2026-09-24.3; that report is preserved.
Ingestion note 2	Method verdict-consistency-2026-09-26.1: directional model votes require matching explicit verdicts and rating thresholds. Inconclusive replies retain their ratings and remain undecided observations.
Ingestion note 3	Presentation copy of saved report bced0e9e-ff82-4c4a-82bc-404c08a9a212. The descriptive filename replaces the earlier example ID for navigation. Original analysis dates, provider replies, scores and acquisition context are retained; no new model analysis.
