

SDA Vision / Research report

illustration-3.webp

Assessment summary

Field	Recorded detail
Finding	Leaning authentic
Recorded verdict	authentic likely
Confidence	medium
Indicative rating	5/100
Rating basis	median of available model ratings; not a calibrated probability
Explanation	3 models lean authentic with matching verdicts and ratings. Review the other findings, original source and context alongside this result.
Coverage	image - 1 frame(s) analysed
Review context	Research assessment. Review alongside source information and context. When credentials are missing, origin remains unresolved by this check. Use these findings to inform a documented human review.

Provider overview

Provider	Type / status	Assessment	Rating
Claude Vision	vision / ok	authentic likely	5/100
OpenAI Vision	vision / ok	authentic likely	5/100
Gemini Vision	vision / ok	authentic likely	25/100
C2PA Content Credentials	provenance / ok	inconclusive	n/a
Local forensic cues	forensic / ok	partially synthetic	41/100

Provider evidence / 1

Field	Recorded detail
Provider	Claude Vision
Model	claude-opus-5-5
Status	ok
Assessment	authentic likely
Confidence	medium
Role in assessment	Supporting
Provider summary	synthetic likelihood 5/100; tells: consistent hand-drawn ink linework with natural stroke weight variation, cross-hatched shading at left edge typical of manual/digital-pen editorial cartooning, coherent, correctly spelled hand-lettered text in speech bubble and labels, legible artist signature ('BEELER') with year mark
Evidence 1	Consistent hand-drawn ink linework with natural stroke weight variation
Evidence 2	Cross-hatched shading at left edge typical of manual/digital-pen editorial cartooning
Evidence 3	Coherent, correctly spelled hand-lettered text in speech bubble and labels
Evidence 4	Legible artist signature ('BEELER') with year mark
Evidence 5	Legible syndicate/publication credit ('The Columbus Dispatch', 'CagleCartoons.com')
Evidence 6	Anatomically coherent hands and consistent character styling
Evidence 7	Stylistic consistency with known Nate Beeler editorial cartoons
Evidence 8	No AI texture smearing, garbled glyphs or melted details
Evidence 9	Caveat: Rating is based on visual style only. Illustrations give fewer forensic signals than camera photos, and the image is a recompressed webp. Confirm provenance against the original Cagle Cartoons or Columbus Dispatch publication (circa 2019).

Provider evidence / 2

Field	Recorded detail
Provider	OpenAI Vision
Model	gpt-6-astra
Status	ok
Assessment	authentic likely
Confidence	medium
Role in assessment	Supporting
Provider summary	synthetic likelihood 5/100; tells: Consistent pen-and-ink outlines and crosshatched shading throughout the cartoon, Coherent, legible hand-lettered speech and disease labels, Deliberate caricature proportions and integrated symbolic virus heads, Visible publication credit and artist signature
Evidence 1	Consistent pen-and-ink outlines and crosshatched shading throughout the cartoon
Evidence 2	Coherent, legible hand-lettered speech and disease labels
Evidence 3	Deliberate caricature proportions and integrated symbolic virus heads
Evidence 4	Visible publication credit and artist signature
Evidence 5	Caveat: Appears to be a conventional editorial illustration, not a camera photo; visual inspection alone cannot verify authorship or exclude AI edits, and the stylized signature/date are difficult to read.

Provider evidence / 3

Field	Recorded detail
Provider	Gemini Vision
Model	gemini-3.8-flash
Status	ok
Assessment	authentic likely
Confidence	high
Role in assessment	Supporting
Provider summary	synthetic likelihood 25/100; tells: consistent editorial cartoon linework, artist signature and syndication text, hand-drawn hatching and crosshatching, coherent hand lettering
Evidence 1	Consistent editorial cartoon linework
Evidence 2	Artist signature and syndication text
Evidence 3	Hand-drawn hatching and crosshatching
Evidence 4	Coherent hand lettering
Evidence 5	Caveat: Editorial illustrations follow stylistic conventions distinct from photographic media, which automated detectors may mischaracterize.

Content Credentials / provenance

Field	Recorded detail
Provider	C2PA Content Credentials
Model	Not recorded
Status	ok
Assessment	inconclusive
Confidence	Not recorded
Role in assessment	Additional finding
Provider summary	Embedded credentials: none found. Origin remains unresolved by this check.
Evidence 1	Coverage: credentials embedded in the submitted file. External credentials were not retrieved.
Evidence 2	Verifier: c2pa-python 0.37.12; native SDK 0.91.0; specification target 2.4; policy embedded-offline-reviewed-trust-v3.
Evidence 3	Offline embedded-manifest verification; no network trust-list, manifest or revocation refresh.
Evidence 4	No reviewed local C2PA trust snapshot installed. Provenance overrides are disabled.

Provider evidence / 5

Field	Recorded detail
Provider	Local forensic cues
Model	Not recorded
Status	ok
Assessment	partially synthetic
Confidence	low
Role in assessment	Additional finding
Provider summary	Heuristic synthetic likelihood 41/100 from metadata + pixel statistics.
Evidence 1	No camera EXIF (common in AI exports, screenshots, and re-saves).
Evidence 2	ELA mean 1.3, peak 34 (uniform high ELA can indicate generation/heavy edit).
Evidence 3	High-frequency noise std 19.52 (very low/very uniform noise is a synthesis cue).
Evidence 4	Spectral peakiness 12.27 (periodic frequency peaks can mark generated textures).

Evidence supporting this verdict

Field	Recorded detail
Claude Vision	synthetic likelihood 5/100; tells: consistent hand-drawn ink linework with natural stroke weight variation, cross-hatched shading at left edge typical of manual/digital-pen editorial cartooning, coherent, correctly spelled hand-lettered text in speech bubble and labels, legible artist signature ('BEELEER') with year mark
OpenAI Vision	synthetic likelihood 5/100; tells: Consistent pen-and-ink outlines and crosshatched shading throughout the cartoon, Coherent, legible hand-lettered speech and disease labels, Deliberate caricature proportions and integrated symbolic virus heads, Visible publication credit and artist signature
Gemini Vision	synthetic likelihood 25/100; tells: consistent editorial cartoon linework, artist signature and syndication text, hand-drawn hatching and crosshatching, coherent hand lettering

Additional findings

Field	Recorded detail
Local forensic cues	Supporting observation; considered alongside the model assessments.
C2PA Content Credentials	Embedded credentials: none found. Origin remains unresolved by this check.
